

## The MLSP Simple 5-Step Daily Action Plan to Fire Your Boss and Live Your Dream

**WARNING:** this 'Top Earner Blueprint' requires just over 4 hours per day. If you only have 2 hours to build your business right now, NO PROBLEM - ***simply cut the time you spend on each step in half!***

If you say you don't have at least 2 hours per day to work on your dream, you have 3 options...

- \* *Get resourceful and find a few 30-minute pockets of time during your day to **work on your dream.***
- \* *Get up an hour earlier & stay up an hour later to **work on your dream.***
- \* ***Get a bigger VISION*** that ignites you to get up an hour earlier & stay up an hour later to **work on your dream.**

### 1 10 MINUTES - Your VISION - Meditation & Visualization

Sit down first thing in the morning to visualize, mentally rehearse, and **step into the vision of your future potential that sets every single cell in your body on fire.** You must get up a different person. Your goal is to sustain this new state of being throughout the day.

### 2 15 MINUTES - Personal Growth / Personal Development

Personal development, developing your mind, and working on yourself. **Always be learning, growing, and working on YOU by feeding your mind material that develops your millionaire mind.** Books, trainings, tutorials, and audios that force you to think bigger, get uncomfortable, and develop your unlimited potential prosperity mindset. **On Monday - Friday, this could be as easy as attending the MLSP Daily Wake-Up Calls and LIVE Daily Coaching & Mentoring Sessions!**

### 3 1 HOUR - Learn Something New Today

Social media networking & prospecting lead-generation, traffic to your offers & funnels, setting up FB ads, tips on content creation & syndication, video marketing, copywriting, personal growth, **LEARN SOMETHING that increases your value to the marketplace every single day.** (ALL of this training can be found in your MLSP back office, and on the LIVE Daily Coaching sessions.)

### 4 1 HOUR - EXECUTION

Knowledge without execution is worthless. Turn the knowledge you gain each day into CONTENT that builds your audience, business, and income. Something to live by as a successful business owner: **Whenever you consume, CREATE!** Whether that's a FaceBook LIVE video, social media post, a 1-on-1 conversation or group zoom training you host... The more you stay consistent and

4 show up daily for the people you serve by creating valuable content every day, the more trust and authority you will gain.

**Spend at least 1 hour per day creating content (we recommend Facebook if you're just starting out). This content must serve your target market, and address and give them solutions to THEIR challenges, pains, and problems.** As YOU get better, your audience will grow. As you get even better, some of your audience will buy your stuff. The more you stay consistent and increase your value... the more exposure you will get, the more your audience will grow, and more and more of your audience will buy your stuff. It really is that simple.

5 **2 HOURS - Networking, Connecting with New People, Prospecting & Recruiting**

This is THE money making activity in ANY business. It is 'people' who buy your products, services, and offers, and it is your job as the CEO of your enterprise to connect with people who are looking for the benefit of your product. Your business is the customers you serve, and you must build relationships if you want to build long-term customers that pay you for years. Whether you're connecting and networking with prospects on FaceBook, or getting on the phone with people who opted-in to your websites (*MLSP has training on both inbound & outbound marketing strategies*)... **IF YOU WANT TO MAKE MONEY FAST IN YOUR BUSINESS, YOU BETTER BE CONNECTING & NETWORKING WITH PEOPLE, and getting as many exposures to your business & product presentations as possible.**

**BUSINESS in any industry is nothing more than marketing and innovation.**

- \* *If you are meditating, visualizing, and stepping into your VISION every single day...*
- \* *If you are constantly growing as a person and feeding your mind every single day...*
- \* *If you are constantly learning new skills as a business owner every single day...*
- \* *If you are constantly executing, implementing, teaching, and creating content every single day...*
